the traveler, where he can get the very best the

market affords, and the bar is second to none in

the State. Try the Grand Central once and you

will stop anywhere else. DAN O'KEEFE,

Proprietor.

### Unexplained.

In Captain King's "Trial of a Staff  
Officer" an amusing story is told of Gen-  
eral Upton, who was at one time com-  
mandant of cadets at West Point. The  
commandant's tent was a great place for  
fighting battles over again.

One day six or eight of us were gath-  
ered there, and the floor was held by one  
of those blatant gentlemen who, having  
graduated before the civil war, and hav-  
ing had just as good a chance as the gal-  
lant band of ambitious young lieuten-  
ants who rose to be generals, had pre-  
ferred the safety, ease and slow promo-  
tion of mustering and disbursing duty,  
and whose only brevet was for the ser-  
vice of the "recruitment of the armies of  
the United States."

For some reason or other such men  
have often been prone to disparage the  
services of successful men, and to at-  
tribute the promotion over their heads  
of such soldiers as Upton and Custer to  
political influence. So Major — was  
on this day holding forth about luck in  
the line, ending with this startling state-  
ment:

"Well, now, Upton's another instance.  
Of course, I don't mean to say but what  
you fought all right, old fellow, when  
you got a chance, but you won't deny  
that there were fellows who went  
through the whole war with the regu-  
lars, stuck to their regiments or but-  
teries, got wounded time and again, and  
only got a brevet; but here you are a  
lieutenant colonel, and never got a  
scratch!"

Considering the fact that Upton had  
been wounded in three different engage-  
ments, he might have been excused for  
making a pointed reply, but he only  
smiled quietly, as he sat writing at his  
desk, and said:

"Well, there are lots of men who think  
just as you do, I've no doubt."

### Different Kinds of Gold.

"Most people suppose," says an as-  
sayer, "that all gold is alike when re-  
fined, but this is not the case. An ex-  
perienced man can tell at a glance from  
what part of the world a gold piece  
comes, and in some cases from what part  
of a particular gold district the metal  
was obtained. The Australian gold, for  
instance, is distinctly redder than the  
California, and this difference in color is  
always perceptible, even when the gold  
is 1,000 fine. Again, the gold obtained  
from the placers is yellower than that  
which is taken directly from the quartz.  
Why this should be the case is one of  
the mysteries of metallurgy, for the  
placer gold all comes from the veins.  
The Ural gold is the reddest found any-  
where."

"Few people know the real color of  
gold, as it is seldom seen unless heavily  
alloyed, which renders it redder than  
when pure. The purest coins ever made  
were the fifty dollar pieces that used to  
be common in California. Their coin-  
age was abandoned for two reasons:  
First, because the loss of abrasion was  
so great, and, secondly, because the in-  
terior would be bored out and lead sub-  
stituted, the difference in weight being  
too small to be readily noticed in so  
large a piece. These octagonal coins  
were the most valuable ever struck."—  
New York Tribune.

### "Thou Diest on Point of Fox."

Fox blades were celebrated all through  
the sixteenth and seventeenth centuries  
for their excellent temper, and mention  
of them is frequent in English drama.  
This is their history: There was a cer-  
tain Julian del Rei, believed to be a  
Morisco, who set up a forge at Toledo in  
the early part of the sixteenth century  
and became famous for the excellence  
of his sword blades, which were regarded  
as the best of Toledo. That city had  
for many ages previous been renowned  
for sword making, it being supposed that  
the Moors introduced the art, as they did  
so many good things, from the east.  
Julian del Rei's mark was a little dog,  
which came to be taken for a fox, and  
so the "fox blade," or simply "fox" for  
any good sword. See "Henry V." act  
iv., scene 4, "Thou diest on point of  
fox." The brand came to be imitated in  
other places, and there are Solingen  
blades of comparatively modern manu-  
facture which still bear the little dog of  
Julian del Rei.—Notes and Queries.

### Sick Room Vagaries.

"It is curious to notice the moral effect  
of illness upon people," said a prominent  
physician the other day. "For instance,  
among my patients are a preacher who  
swears when he is sick and a gambler  
who prays. A successful and well  
known business man will not go to his  
bed when illness attacks him because of  
a morbid fear that he will never rise  
from it again. A lady of not the prettiest  
character has all her jewelry and fine  
dresses laid on the foot of her bed, I sup-  
pose to keep her mind from terrifying  
thoughts. A hundred other peculiari-  
ties are developed, but the most remark-  
able one to me is that of a professional  
man who reads up in current literature  
when he is really seriously ill because he  
hasn't time to do it when he's well."—  
Cincinnati Enquirer.

Ease up a little, then, upon merely  
physical labor and material achieve-  
ments. Draw a black line between es-  
sentials and nonessentials. Adopt early  
hours and a more healthful diet; demand  
of every day an hour or more of rest and  
see how the roses of youth will linger  
even into the desert and blight of age.—  
Chicago Herald.

Children Cry for Pitcher's Castoria.

## "German Syrup"

G. Gloger, Druggist, Watertown,  
Wis. This is the opinion of a man  
who keeps a drug store, sells all  
medicines, comes in direct contact  
with the patients and their families,  
and knows better than anyone else  
how remedies sell, and what true  
merit they have. He hears of all  
the failures and successes, and can  
therefore judge: "I know of no  
medicine for Coughs, Sore Throat,  
or Hoarseness that had done such ef-

fective work in my  
family as Boschee's  
German Syrup. Last  
winter a lady called  
at my store, who was  
suffering from a very  
severe cold. She could hardly talk,  
and I told her about German Syrup  
and that a few doses would give re-  
lief; but she had no confidence in  
patent medicines. I told her to take  
a bottle, and if the results were not  
satisfactory I would make no charge  
for it. A few days after she called  
and paid for it, saying that she  
would never be without it in future as  
a few doses had given her relief." ®

### BOOTS AND SHOES.

BY TELEGRAPH!  
News of Importance From  
Home and Abroad.

The Commissioner of Railroads has submitted his annual report to the Secretary of the Interior. It says that for the last year there has been an increase in the gross receipts, but a falling off in the net earnings of the roads which are indebted to the Government. These roads are paying into the Treasury each year all that the law requires them. So it appears, it is not the fault of the railroads, but of the law-makers, that the indebtedness of the roads increases annually. The statements of the Commissioner show the total gross receipts of the bonded roads for the last year to have been \$28,045,000; the net earnings, \$6,059,000; the Government requirement, \$1,740,000; of which \$1,616,000 was paid in. The total bonded debt of the subsidized roads up to December 31, 1890, was \$112,513,000. The debt increased because the percentage required by the law to be paid into the Treasury does not create a sum equal to the interest the Government has to pay on the subsidy bonds.

The Commission has little doubt of the ability of the principal bonded roads to eventually meet all their obligations to the Government, but the sum of these obligations are apparently beyond the possibility of payment in money at their maturity. Some plan of refunding, he thinks, must be devised to give the roads time, and he strongly urges that some action be taken looking to a settlement between the roads and the Government.

THE UTAH COMMISSION.

The Utah Commission, whose authority is almost absolute in that territory as that of the Czar in Russia, has submitted majority and minority reports to the Secretary of the Interior. The majority report holds that in view of the fact that the Mormon Church has invariably dictated the political movements of its adherents, those who now doubt its sincerity may well be excused for doing so. The Church has strenuously opposed every effort made, whether by the laws of Congress, the action of the Courts or of the Utah Commission, to put down polygamy. The minority report states that polygamous marriages in Utah have decreased to the point of virtual cessation and that it would be neither just or politic to extend by law the range of existing civil disabilities indiscriminately to all Mormons.

There are Gentiles living in Utah who attribute much of the ill-feeling existing between the Mormons and Gentiles to the Utah Commission. This Commission consists of five persons, who draw a salary of \$6,000 a year from the Federal Government for supervising elections and making annual reports on the condition of the Territory. The majority of the members are opposed to having the Mormons divide on National party lines, because such a division would, naturally, deprive them of office. They must, if possible, keep alive the feeling which existed between the Mormons and Gentiles years ago, for if that dies out Utah will be admitted as a State and there will be no use for the commission.

At the election held in Utah last August the Mormons divided on National issues, their elders taking the stump in opposition to each other, and there is no evidence that they were not as sincere as Gentile Republicans and Democrats. To admit that they were on the part of the Commission would imply that the Territory ought to be made a State, as it has a larger population than Idaho and Wyoming combined, and that is what a majority of the Commission do not want, as it would deprive them of lucrative positions at the public crib.

PUBLIC LANDS.

The report of the Commissioner of the General Land Office gives the number of acres of public lands in the United States and Territories as follows:  
Alabama, 947,310; Arizona, 55,061,005; Arkansas, 4,998,398; California, 52,299,400; Colorado, 42,167,030; Florida, 3,468,381; Idaho, 33,781,531; Iowa, 6,000; Kansas, 799,078; Louisiana, 1,243,118; Michigan, 781,816; Minnesota, 6,849,975; Mississippi, 1,201,280; Missouri, 1,023,898; Montana, 74,372,769; Nebraska, 11,480,436; Nevada, 53,689,524; New Mexico, 54,893,679; North Dakota, 16,135,440; Oklahoma, 3,502,406; Oregon, 39,230,151; South Dakota, 14,085,394; Utah, 35,428,987; Washington, 20,401,691; Wisconsin, 1,003,133; Wyoming, 50,842,434. Total, 579,664,583 acres.

Government agents have been at Wadsworth negotiating with the Putes for a portion of the reservation. They have located the line seven miles north of Wadsworth at Lee and Frazier's ranch, for which the Indians are to receive cattle to the value of \$20,000. The Indians have reserved 40 acres of land near the town of Wadsworth for their school buildings.

Chili and the United States.

SANTIAGO, Chili, October 5.—The Chilean Government has so far evinced no intention of abandoning its position that it has a perfect right to arrest persons as they enter or leave the precincts of the American Legation, but while strenuously insisting upon possession of this abstract right, the Government is at present making no attempt to put it in practice. Partisans of Balmaceda who took refuge under Minister Egan's roof, are still there and no arrests have been made during the past few days. It cannot be learned what the Government has in contemplation, if any plan, for asserting in the near future the right of arrest that is claimed, but it is thought the present unsatisfactory situation cannot be long in continuance. In accordance with instructions received from the State Department at Washington, Minister Egan has given the Junta to understand by formal and official notice that if the Chilean authorities continue to maintain their present attitude, the friendly relations between Chili and the United States will be interrupted. The Junta's reply to this notice is awaited with great interest. What Minister Egan's next step will be in case the reply is unfavorable is not known. The United States flagship San Francisco, which is returning from the North, is expected to reach Valparaiso some time this week. When she gets into port the present plan of the American Minister is to ask the Chilean Government to allow the refugees now at the United States Legation to go on board the United States man-of-war Baltimore and take their departure from Chilean territory.

The Donahue Railroad.

SAN RAFAEL, Cal., October 5.—A case of great moment which may result in a change of the controlling power of the Donahue Railroad was heard before Judge F. M. Angellotti in the Superior Court today. The Donahue road is conceded to be the most profitable holding of the kind in this State. It embraces the main road from San Francisco to Ukiah, the Sonoma branch, Sebastopol and the Guerneville branches. The road traverses a section of about 170 miles of fertile valleys in the State. There is no opposition line.

The hearing was on a petition filed by the creditors of the estate of the late J. Mervyn Donahue. The prayer stated that the claims of the petitioners had been filed and allowed over a year ago and that no disposition was ever shown to settle said claims.

The First National Bank by S. C. Murphy, President, has the largest claim, amounting to \$30,000. There were also two claimants for lesser sums.

After arguments by attorneys, Judge Angellotti rendered a decision in favor of the petition, holding it the duty of the executor to at once sell such portion of the estate as would enable them to pay the creditors. Mr. Hanlon on behalf of the contestants filed an objection and further hearing was continued to Wednesday. It is rumored that a local stock company will be formed and the interest bought and held in this State.

Probate of Mrs. Fair's Will.

SAN FRANCISCO, Cal., October 5.—The matter of admitting to probate the will of the late Mrs. Theresa Fair came up to-day before Judge Coffey. Attorney Goodfellow created quite a surprise by stating that he represented Charles Fair, who had informed him that he believed there was in existence a later will than the one offered for Probate. An order to allow him, in conjunction with the Executors of the estate, to examine the box in the safe deposit, where Mrs. Fair kept her papers, was made, but no will was found and the first will was admitted to probate. R. V. Dey who managed the property of Mrs. Fair said her real estate in this city was worth about \$4,000,000. The will which was admitted to probate to-day, leaves to Mrs. Oelrichs and Miss Virginia Fair \$1,500,000 each and to Charles Fair and James G. Fair, Jr., \$500,000 each.

Brigandage in Cuba.

HAVANA, October 5.—The execution of Eustasio Mandez, the kidnapper, does not seem to have instilled any fear into the hearts of the other persons engaged in brigandage and kidnapping in various parts of Cuba. Intelligence has reached this city of another brutal crime committed by bandits. An outlaw named Manuel Garcia, with two other bandits, made an attack upon the residence of Senor P. Hernandez and killed both him and his wife. When the officer searched the body of Senor Hernandez he found in one of the pockets of his clothing a letter from Garcia addressed to the civil authorities of Cienfuegos. The letter says: "Hernandez had been my friend since boyhood. I killed him because he tried to deliver us to the guards. I have never before killed a woman but I killed his wife because she induced him to betray me. I hurt only those who hurt me."

The Rush Ordered Back.

SAN FRANCISCO, October 5.—A Washington special says the Rush has been ordered to return to the Behring Sea.

Accidents at a Funeral.

Des Moines, Iowa, October 5.—A series of frightful accidents occurred in a funeral procession at Altoona to-day. A procession of forty carriages was following the remains of Nichols Hempstreet from the church to the cemetery, located some distance from town. While the procession was winding down the hill, a team in the rear of the others became frightened at a steam thresher and started to run. The road was narrow and the team ran into and upset a dozen carriages, breaking six into splinters and scattering the occupants. Other teams started to run and a panic ensued. Many women jumped out of the carriages, only to be trampled on by the runaway teams. After quiet was restored it was found that one man was killed outright and four persons fatally injured and a score bruised.

Examination of Actor Curtis.

SAN FRANCISCO, October 5.—There was some sensational testimony to-day in the preliminary examination of Actor Maurice B. Strellinger for the murder of Policeman Grant. On Saturday last Henry Jeronson who was formerly employed by Strellinger as gardener, identified the pistol found near the scene of the murder as one belonging to Strellinger. To-day Jeronson voluntarily took the stand and said his testimony given Saturday was false and that he testified then through fear of the police to what they had told him to-day. He said to-day that he had never seen a pistol in Strellinger's possession. The nippers found on Strellinger's wrist were identified as those belonging to officer Grant. The case was postponed for one week.

The Palo Alto Races.

STOCKTON, Cal., October 5.—Charles Marvin, who has the Palo Alto trotters here hopes to break two records on the kite-shaped track to-morrow. He will drive Arion, the two-year-old Electioneer colt, racing record 2:21, to beat the world's record for that age of 2:18, with Bell Bird, yearling. He expects to beat the world's record for that age of 2:30. He has eight entries in the first day's programme. He worked Sunol and Palo Alto to-day and found them in fine condition with good weather. He will start them next week.

An Alaska Packer's Association.

SAN FRANCISCO, Cal., October 5.—The Alaska Packer's Association comprising the controlling interests in the thirty-three salmon canneries of Alaska has been formed here. The association is controlled by the following board of trustees: S. M. Smith, G. W. Hume, J. N. Knowles, Chas. Hirsch and E. B. Beck with W. D. Bradford as secretary.

Shot and Killed.

VALLEJO, California, October 5.—Jim Carey was shot and killed by Alphonso Wilson last night. Wilson was tending bar in a saloon and quarreled with Carey who threatened to strike him. Wilson took down his shot gun from behind the bar and fired killing Carey almost instantly. Wilson claims the shooting was accidental.

The act of Judge Wallace, the presiding Judge of the Superior Court of San Francisco, in impeaching an honest Grand Jury, comes up to-day before the Supreme Court of California. The strange part of the proceeding is that it is witnesses, some of whom pretend to be respectable citizens, not persons indicted by the jury, who allege that it was illegally impaneled. There are newspapers too, which, while admitting that San Francisco reeks with corruption, encourage witnesses in being conformational, by charging that the Grand Jury was not impaneled legally.

The gold which was taken to Europe last Spring is now being returned to the United States to pay for wheat and bacon. As silver bullion is cheaper now than when the stream of gold was flowing the other way, it is plain that the value of silver in the standard dollar does not create the current.

**HOOD'S**  
COMPOUND EXTRACT  
**SARSAPARILLA**  
TRADE MARK

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No To Itself cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to buy any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

**CALIFORNIA FIG SYRUP CO.**  
SAN FRANCISCO, CAL.  
LOUISVILLE, KY. NEW YORK, N.Y.

ADMISSION DAY.

The Reno Guards Propose to Celebrate It.  
The Reno Guards at a meeting held last night, decided to celebrate Admission Day with appropriate exercises, providing the movement receives the approval of the citizens of Reno. It is a day in which every Nevadan should take an interest. At the last session of the Legislature Admission Day was made a legal holiday and it should be made by Nevada's Native Son's second only to the Fourth of July. A committee of three was appointed by the Guards to arrange a programme and a special meeting was called for next Thursday evening to hear their report.

The New Court of Appeals.

CHICAGO, October 5.—The new United States Court of Appeals for the Seventh Judicial District, was formally opened to-day by Justices Harlan of the Supreme Court, Circuit Judge Gresham and District Judge Blodgett, and the hearings begun.

BREVITIES.

Bar Silver 97 3/4.  
Yesterday was a delightful day.  
Geo. S. Smith of Washoe City is in town.  
S. Jacobs left yesterday for San Francisco.  
Mr. and Mrs. D. A. Bender were in Reno yesterday.  
Chris Diehl of Winnemucca has gone to San Francisco.  
James Newlands of Virginia City was in Reno yesterday.  
Misses Clapp and Babcock were visitors in Carson Sunday.  
R. L. Horton, State Controller, arrived in Reno last night.  
Japanese wedding at Baptist Church. See 50-cent column.  
El Williams of Winnemucca came down from Carson last night.  
Hon. Lem Allen left Sunday for his home in Churchill county.  
Mrs. C. C. Powning left yesterday for an extended visit to the Eastern States.  
Nevada Lodge No. 5, A. O. U. W., will hold its regular meeting this evening.  
H. M. Yerington came down from Carson last night and continued on his way to the city.  
Grayson, Owens & Co. of Oakland, California, have purchased 650 steers of Kirman & Riekey.  
The Highland Ditch is broken and the water works have been at low pressure in consequence.  
Mrs. Al. White left yesterday for San Francisco where she will remain for several weeks visiting friends.  
Miss Ella Bender of Carson departed for the East yesterday and will spend the winter in the Empire State.  
Yesterday the Government purchased 682,000 ounces of silver at prices ranging from 96.98 to 97 cents per ounce.  
Remember the anniversary ball to be given by Washington Lodge, No. 25, A. O. U. W., October 30th at the Pavilion.  
Dr. Herdan has rented a cottage opposite the City Hotel and after a visit to San Francisco, will locate permanently in Reno.  
Theodore Winters, two-year-old, Yo Tambien, won a mile race at Garfield Park, Chicago, yesterday in 1:44, carrying 125 pounds.  
Ex-Congressman Thomas J. Clunie, one of the best known Democrats on the Coast, passed through en route to Washington on Sunday's train.  
The weather has cleared off and the days are quite warm again. It is quite probable that we will have pleasant weather now for a week or two.  
E. C. Sessions & Co. have removed from their old stand to Thompson's building on Virginia street, formerly occupied by the Palace Dry Goods Store.  
The iron bridge is being replanked and travel over it will be suspended to-day. Teams desiring to cross the river must go by way of the cattle bridge.  
Rev. Mr. Henry, formerly a missionary in the cannibal islands, who has been in Reno and Wadsworth for some time past has gone to San Francisco.  
Frank Norcross, principal, and Miss Mamie Lane, assistant, of the Verdi public school, were passengers for Verdi on Sunday evening's delayed train.  
The amount disbursed by the Comstock mining companies for the month of September amounted to \$180,019, which is \$14,771 less than the previous month's roll.  
Theo. Winters sent his palace car of flyers through to California Sunday. Roy Del Rey, one of the celebrated Winters' racers won a race at Morris Park Saturday.  
Saturday evening's and Sunday's trains brought down many of the Carson Fair visitors. The streets were filled with strangers and it almost looked like the beginning of another fair.  
The second crop of alfalfa is now mostly stacked. The late stormy weather delayed the work somewhat but resulted in little or no damage to the farmers. The cold snap following the storm slightly damaged the fruit.  
H. L. W. Knox and family arrived from San Francisco yesterday afternoon and will make Reno their future home. Mr. Knox says Reno is the best town on the Pacific Coast and he does not intend to leave it again.  
The loss of a \$5 gold piece caused some little amusement as well as excitement on Commercial Row yesterday. The use of a crowbar, however, with the aid of a small boy, rescued the coin from the debris underneath the sidewalk.  
There was an incipient blaze at the Phoenix Hotel Sunday morning, which by prompt action of friends and employees, was nipped in the bud. The house was well filled with smoke before the source of the fire was discovered and for a time there was considerable excitement.  
The gymnasium will be reopened next Friday evening under the leadership of Al. Helms, who has so successfully conducted it for the past year. It will be well for young men engaged in intellectual pursuits to remember the adage "A strong mind is found in a strong body."

A well-known writer says that a gentleman is one who never indicts pain. This is surely too hard on the dentists.  
A railroad man says that schedule time could be greatly cut down if passengers would learn to enter the car by the rear door and leave it by the front.  
A man supposed to have been killed during the war, and on whose account his supposed widow has been drawing a pension, turned up all right at his home in Illinois a few days ago.  
The University Regents held their monthly meeting yesterday and transacted a good deal of important business. The faculty has been increased by the arrival of a new professor.  
The California State Board of Trade states that California shipped East during the year 1890, 498,344,752 pounds of vegetables alone. This includes potatoes, onions, pears, beans, etc. This is 2,492 carloads of ten tons each.  
The streets were lighted again last night and presented their wonted appearance. The County Commissioners and Electric Light Company compromised on \$12 per light per month, and people who have to be out evenings can see their way home if they do not live too far out in the country.  
The Board of County Commissioners met yesterday, all the members being present, and in accordance with the prayer of a petition from many citizens, entered into an agreement to renew the arc lights on the public streets. The Board also released Dr. Dawson, who is going to leave, from his contract as county physician.  
O. R. Johnson who was connected with Hill Beachy in the staging business from Hunter's Station (now Mayberry's ranch), on the Truckee, to Silver and Boise Cities, Idaho, before the Central Pacific Railroad was built, has been allowed a claim of \$127,000 for stock destroyed by the Indians on the road between Winnemucca and Jordan Valley in 1866.  
A school geography printed in 1812 says: "California is a wild and almost unknown land. Throughout the year it is covered with dense fogs, damp and unhealthy. In the interior are volcanoes and vast plains of shifting snow, which sometimes shoot columns to great heights. This would seem nearly incredible were it not for the well-authenticated accounts of travelers."  
The University boys made a killing on snipe the other evening. A couple of freshies were initiated and successfully held the sack beneath the N. & C. tressel for several hours. They held it down well while the sly snipe drivers stole quietly home and left their amateur hunters to face the wistful blasts. The bill of fare at the Dormitory the following morning called for snipe on toast.  
The Elko Independent says: Sparks & Harrell, of Tecoma, Nevada, a few days since, shipped a train load of cattle from that place, billed over the Southern Pacific, Denver and Rio Grande and Burlington to Chicago. On arriving at Denver they found a purchaser, who bought the entire lot at \$25 per head for cows and \$30 for steers, the buyer assuming all expenses from Tecoma to Chicago.  
Free Water.  
Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a windmill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringing business to his office.  
Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped.  
Can you afford a pumping plant of your own? We will answer for you, Yes.  
We are prepared to take contracts this winter to erect any sized wind-mill plant required, with proper tank and service connection, furnishing them on a monthly installment plan, warranting all work and taking proper care of all mills so erected.  
Plans and specifications free upon application. anti-freezing pumps and protected pipes insure equally as good winter service as in summer. For further particulars call on  
dec51f Reno Mfg. Co.

BRONCO NOTES.  
Preparing Ice Houses for Winter Use.  
Ed. STATE JOURNAL: The Mountain Company, under the supervision of David Dysart, has a force of men at work repairing and cleaning their ice houses at Cuba for the coming crop.  
The National Ice Company, Hollings & Simonds, managers, are crowding work as fast as possible on the ice house which is being built here. The building is 50x300 feet and 30 feet high. This company has 145 men on the pay roll.  
The flume from Mason, Kidder & Co.'s mill to Bronco is completed and the lumber from their mill is being used as fast as flamed, by Mr. Bowden, who is superintending the building of the ice houses. The company has opened a well supplied saloon, which is conducted by R. C. Knepeke, and Bronco is to-day one of the liveliest camps on the river.  
SKINNERHORN.

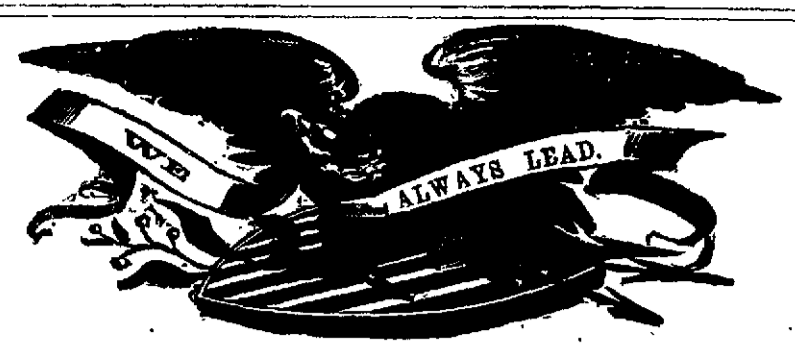

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

ABSOLUTELY PURE

THE STATE BOARD OF ASSESSORS.  
Contradictory reports are afloat relative to the action of the State Board of Assessors and Equalization. The JOURNAL, believing that the Board had dealt fairly with the railroads, and intended to deal fairly with the people, was among the very first to give it credit. Now, it is rumored, that the Board included the rolling stock of the railroads, which last year was valued at about one million dollars, in the assessed valuation of the main tracks of the roads, and that the State would derive no more revenue from the roads than it did last year. This, perhaps, would not cause much complaint were it not for the rumor that the Board had evinced a disposition to increase the valuation of property other than railroads thirty per cent. throughout the State. This rumor gives rise to much adverse comment and should it prove to be well founded, the Board of Assessors and Equalization will be blessed to the wrong side of Heaven by the people as fervently as were those who voted for the act creating it. That Act, as is well known, was one of the most unpopular ever passed by the Nevada Legislature. It is in the power of the Board to popularize it to some extent by dealing fairly with the people and the railroads, but if, as is rumored, the Board discriminates in favor of the railroads by increasing their valuation fifteen per cent. and against the public by increasing the assessment of private property thirty per cent. public opinion will be more pronounced than ever against the Act and the Board.  
Advertised Letter List.  
Following is the list of letters remaining uncalled for in the Reno Postoffice, October 5, 1891.  
Benot Eli Bell, W. A. Carter, L. Eden, Joe Frazer, A. Franklin, Mr. Grager, A. Hobbs, Horace Hopton, W. J. Jones, O. M. King, Miss Grace Lampbell, M. Moritz, John C. W-2 Moggiolo, Carlo FOMERAN.  
Cassioni, Felice Rmenko, Sime Fuchs, Agatha.  
H. P. KNAUS, P. M.  
For Over Fifty Years  
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."  
DISTRICT COURT.  
The Business Transacted Yesterday.  
In the District Court yesterday, Judge Cheney presiding, the case of the State of Nevada vs. William Eastman, indicted for forgery, came up for trial. The State was represented by District Attorney Julian and the defense by C. A. Jones. The trial consumed most of the day, the case going to the jury at 2:45 p. m. After being out several hours they returned a verdict of guilty as charged.  
To-day the case of T. E. Haydon vs. Samuel Brown will be in progress.  
New Sugar Process.  
It is claimed that a new process has recently been made in the manufacture of sorghum sugar by which gum substances may be eliminated from the saccharine matter, and which will make the cane yield from fifty to seventy pounds more sugar to the ton than it has been doing. Professor Wiley, who has been experimenting in this, says that sorghum sugar will bring about three cents a pound and possibly four cents. This will give the farmer more for his product than anything else he can produce, and still leave a good profit to the manufacturer.—New York Journal.  
Recent statistics show the estimated population of the world to be 1,487,000,000, an increase of 8 per cent. in ten years. Europe is the most thickly settled, having a population of 380,200,000, or 101 persons to the square mile. North America has 89,250,000, or fourteen to the square mile, an increase of 20 per cent. in the past decade.  
Ease up a little, then, upon merely physical labor and material achievements. Draw a black line between essentials and nonessentials. Adopt early hours and a more healthful diet; demand of every day an hour or more of rest and see how the roses of youth will linger even into the desert and blight of age.—Chicago Herald.  
There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address,  
F. J. CHENEY & Co., Toledo, O.  
Sold by druggists, 75c.  
BUSINESS, LOCAL AND NEWS ITEMS.

**Intellectual Men and Ouida's Novels.**

Some time ago a busy man of the world asked Mr. Charles A. Dana how he managed to keep himself mentally so fresh and vigorous. Mr. Dana gave several explanations, and among others he admitted that he had taken to reading novels. Frequently Mr. Dana is seen riding on the elevated reading a novel or a volume of short stories, and the smile which plays on his face indicates how thoroughly he delights in such pursuit. He is a great admirer of a novelist whom Mr. Howells would esteem with horror, and that is Ouida; and it is a curious thing, perhaps, that among the many readers of this popular writer in this city there are to be numbered so many vigorous intellects.

Toscoe Conkling anticipated a new novel of Ouida's with as much pleasure as a Frenchman used to look for a new installment of Alexander Dumas' romances, and he regarded Ouida's "Under Two Flags" as one of the best stories which he had ever read, and even went so far as to recommend that grim and dignified justice of the supreme court, Samuel Blatchford, to read it if he wanted a mental tonic. Congressman Reed is a great admirer of Ouida, and Joe Choate confesses to the pleasure he has taken in reading the works of this woman.

Novel reading has become a passion with many of our professional men, and I saw the other day the dignified president of Yale college trotting across the street to the Grand Central station with a couple of novels under his arm and another one in his hand, with his fingers inserted between the pages, as though he had just been reading it and even begrudged the interruption which took him from his hotel to the railway station.—E. J. Edwards in Philadelphia Press.

**Foiled by a Filibuster.**

A. P. Hulse, late of the custom house, tells a good story of some filibustering that came under his notice years ago:

In 1859 Harry Maury, a midshipman, who had resigned from the service of the United States government, was in command of a brig off Mobile bay. The vessel was loaded with filibusters for Walker and was overhauled by a revenue cutter. An officer went aboard in the night with instructions to seize the vessel and bring her to Mobile. Maury, who was equal to the emergency, prepared himself by unshackling the anchor from the chain and fastening a lantern to a pole. When the vessel arrived at Dog River bar it was hailed from the cutter and ordered to come to.

Then came the order, "Let go your anchor!" Maury let go. "Pay out thirty fathoms of chain!" was the next order. Maury ran the chain through the hawser hole and over the rail back on deck. He was ordered next to hoist a light, which he did by lighting the lantern already affixed to the pole and sticking the latter in the mud. He then, when all was quiet, put off down the bay, leaving the cutter watching the light, which it did until morning.

In the meantime the officer from the cutter, who was in charge of the filibustering vessel, was down in the cabin playing cards. On arrival at the entrance of the harbor the officer was tapped on the shoulder and told of where they were and asked if he wished to go ashore. A boat was at his service and he took it, returning to the cutter in time to share the chagrin of his mates.—San Diego Sun.

**Electricity That Kills.**

Dr. C. F. Chandler of the Columbia School of Mines says: "An interesting misapprehension that exists in the minds of a good many persons is concerning the vital dangers that lurk in the pressure of, say, 1,000 volts. The newspapers often tell us that a man has been killed by such a pressure, whereas, in fact, such a pressure alone couldn't kill a humming bird. I have frequently caught in my hand sparks possessing an electromotive force of 100,000 volts without feeling anything more than a very slight burn."

"The danger arises only when the volts are re-enforced by a good many amperes or currents, as when one takes hold of a charged wire. Then one feels a shock that is unmistakable, because force of a great many currents in the wire suddenly decompose all the fluids in the body. The salt in the blood at once turns to chlorine gas, and the man whose veins are charged with this deadly poison cannot in reason be expected to live long."

**A Youthful Yankee's Ingenuity.**

A boy we know had some chickens of which he had made pets. He and his father went to their work early in the morning, and while the rest of the family were away for the summer it became a question how the chickens were to be fed with proper regularity.

The boy was equal to the occasion. He took an alarm clock and fastened it securely to one side of the barn by means of two spikes. Next he hung a bucket of corn to a rafter and connected it with the clock by a stout cord.

He wound up the alarm and set it at 4 o'clock. At that hour the alarm went off, wound up the string and tipped over the bucket. And so the chickens were fed by clockwork.—Cleveland Leader.

**Proportions of the Human Figure.**

The proportions of the human figure are six times the length of the right foot. The face from the highest point of the forehead, where the hair begins, to the end of the chin is one-tenth of the whole stature. The hand from the wrist to the end of the middle finger is also one-tenth of the total height. From the crown to the nape of the neck is one-twelfth of the stature.—Current Literature.

John Wilson, better known in literature as "Christopher North," was a robust walker. A forty or eighty miles tramp was no unusual undertaking for him. He often walked at the rate of five miles an hour for a whole day, and at the end of those long walks would write off columns of the brightest things that adorned the pages of his Edinburgh Review.

**Scared by the Phonograph.**

One of the African convicts of King Gangrunbama in London, the other day, was nearly frightened to death by a phonograph. He talked to the instrument and when it repeated his words to him he fell on the floor in a swoon. It was some time before he gained courage to ask questions, as he thought a witch doctor was in the phonograph. He proposed to silence the witch by stuffing a dried frog's leg into the instrument, along with some other charms he had with him. Having been dissuaded from this and the matter explained, he said it was no use for him to tell lies, as all his words were recorded.—London Letter.

**Another Wandering Turtle.**

Erastus North, of Berlin, caught a turtle last week which was first captured by his father half a century ago. The following letters are carved on the shell, "L. J. Lamb, A. S. E. N., 1840." The initials "A. S." mean Albert Sanderson, who is still living in Durham. Mr. Lamb and the original Erastus North are dead. Witnesses are living who can testify that the three men referred to marked the turtle as above in 1840 and then permitted it to go free.—Hartford Courant.

**Like the Man in Our Town.**

A Unity man who lost his false teeth while in bathing on Sunday and found them again while taking another dip Monday thinks he has some slight idea of how the renowned man of bramble bush fame felt.—Lewiston (Me.) Journal.

**Baseball playing on the house roof** is the novel though dangerous way in which a number of factory hands in New York spend their dinner hour. A long cord is attached to the ball and then tied to the chimney, so that the ball cannot get out of reach.

A lobster more than three feet long and weighing twenty-three pounds, was caught a few days ago by Captain John Condon, at Moose point, near Belfast, Me.
